Preparation for Visit

Pre-treatment Preparation

Avoid skin irritation or intentional skin tanning.

Sun-screen is advisable when outdoors during daylight hours.

Discontinue any irritant topical agents (such as acids or retinols) 2-3 days prior to treatment.

Arrive for treatment with clean, shaved skin. There should be no lotion, make-up, perfume, powder or bath/shower oil present on the skin in the area to be treated.

Hair-bearing areas to be treated should be shaved prior to treatment day.

Post-treatment Care

Avoid very hot water and direct heat exposure for 2 days.

Avoid scrubbing and scratching the treated area.

Moisturize the skin and continue sun-screen daily.
